

**FORT MONMOUTH
MONMOUTH COUNTY, NEW JERSEY
BASE REALIGNMENT AND CLOSURE**

ADMINISTRATIVE RECORD FILE INTRODUCTION

The documents contained in this administrative record (AR) file were used to identify appropriate remedial activities for use at the Fort Monmouth Base Realignment and Closure (BRAC) property. The AR file reflects documents considered or relied upon in selecting the response actions for contamination identified at the property. The AR file also serves as a vehicle for public participation in selecting the response actions. Documents reflecting this involvement are included in the AR file.

The AR file index is a subset of the permanent record and is sorted by filename. The filename is an alpha-numeric identification code unique to each document and is located on the first page of the document in the lower right-hand corner.

Questions or requests for further information should be directed to the Fort Monmouth BRAC Environmental Coordinator, William Colvin.
