Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) has reviewed the Soil Reuse Work Plan (WP) submitted by the Department of Army. The Department approves the WP as presented to reuse the soils as clean fill (landfill cover or cap), provided that the results of the sampling are submitted for further review and found to be acceptable. Please also identify which Department standards will be used to compare the results of the analyzed soil samples.

If you have any questions regarding this matter, please feel free to contact me at (973) 656-4427.

Sincerely,

A.J. Joshi
