Mr. Colvin,

The submitted workplan addendum for Parcel 34 (Building 2567) is acceptable. The installation of one new monitor well is approved to complete the horizontal delineation of VOC compounds. As previously indicated, please provide all analytical results above any standard on a map (with sample location, constituent name, result and sample depth) as well as provide a table of all ground water data past and present.

Please feel free to contact me if you have any questions. Thank you.
