Re: Site Investigation Report (SIR) UST 490
Fort Monmouth, Oceanport, Monmouth County
Preferred ID: G000000032

Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) has completed its review of the SIR for UST 490. Based on the review, the Department offers the following comments.

Based upon the review of the submitted data, the Department approves additional soil investigation for 2-methylnaphthalene via soil excavation in the vicinity of former UST 490. The SIR has also requested that a No Further Action (NFA) determination be issued for groundwater. Please note that the Department will defer the issuance of this NFA until after the soil investigation has been completed.

Thank you and please feel free to contact me if you have any questions.

Sincerely,

A.J. Joshi
