Re: **Remedial Action Type:** *Unrestricted Use*
Scope of Remediation: *Area of Concern: Groundwater for Parcel 80*
Monmouth County
SRP PI# G000000032
RPC000001

Dear Mr. Colvin,

The New Jersey Department of Environmental Protection (Department) has completed review of the Response to Comments submittal dated March 16, 2017, prepared by the Department of the Army Office of Assistant Chief of Staff for Installation Management which requested determination of no further action for the groundwater at Parcel 80. It is agreed no additional action is necessary for the groundwater at Parcel 80.

The Department concurs with the Department of the Army's request that all remedial activities relative to the groundwater are complete and no additional remedial action for the groundwater are necessary for the referenced areas of concern, and no other areas. The determination that the remedial action is complete is based upon information in the Department's case file, the reports submitted by the Department of the Army, and the certified representations and information provided to the Department.

Please contact Linda Range at (609) 984-6606 if you have any questions.

Sincerely,

Gwen B. Zervas, P.E.
