Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) reviewed the information submitted on March 1, 2018 by the Department of the Army. The Department concurs with the Department of the Army that no additional action is necessary for the former underground storage tank UST 202D at Parcel 81; it is agreed all remedial actions including ground water investigation related to the former UST are complete. The determination that all remedial action is complete is based upon information in the Department's case file, the report submitted by the Department of the Army, and the certified representations and information provided to the Department.

If you have any questions regarding this matter, please contact A.J. Joshi at (973) 656-4427.

Sincerely,

Gwen B. Zervas, P.E.
