Pesticides and PAHs at Sample Location 800-44

Arsenic and PAHs at Sample Location 800-32

Fort Monmouth
Monmouth County
Program Interest # G000000032

Dear Mr. Occhipinti:

The New Jersey Department of Environmental Protection (Department) has reviewed the June 2015 Site Investigation Report Addendum Attachment W submitted by the Department of the Army pursuant to the Department of Defense State Memorandum of Agreement (DSMOA) executed on April 3, 1992 and the Technical Requirements for Site Remediation at N.J.A.C. 7:26E.

The Department concurs with the Department of the Army's request that all remedial activities are complete and no additional remedial action is necessary for the referenced areas of concern, and no other areas. The determination that the remedial action is complete is based upon information in the Department's case file, the reports submitted by the Department of the Army, and the certified representations and information provided to the Department.

If you have any questions regarding this matter contact Linda Range at (609) 984-6606.

Sincerely,

Gwen B. Zervas, P.E., Section Chief
Bureau of Case Management
