Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) reviewed the information submitted by the Department of the Army regarding the above referenced location. The Department concurs with the Department of the Army that no additional action is necessary for the former Transformer near Building 292 (Parcel 47). It is agreed all soil sampling results near the former transformer location are below the Residential Direct Contact Soil Cleanup Standards. This determination is based upon information in the Department's case file, the SI report submitted by the Department of the Army, and the certified representations and information provided to the Department.

If you have any questions regarding this matter, please contact A.J. Joshi at (973) 656-4427.

Sincerely,

Gwen B. Zervas, P.E.
