Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) reviewed the information submitted by the Department of the Army. The Department concurs with the Department of the Army that no additional action is necessary for soils associated with the former Lime Pit located at FTMM – 22. It is agreed all remedial actions related to soils at this location are complete. The determination that the remedial action is complete is based upon information in the Department's case file, the Remedial Action Report submitted by the Department of the Army, and the certified representations and information provided to the Department.

If you have any questions regarding this matter, please contact A.J. Joshi at (973) 656-4427.

Sincerely,
