Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) reviewed the Site Investigation Report (SIR) submitted by the Department of the Army. The Department concurs with the Department of the Army that no additional action is necessary for the former underground storage tank UST 211 and it is agreed all ground water investigations associated with this UST are complete. The determination that the remedial action is complete is based upon information in the Department's case file, the SIR submitted by the Department of the Army, and the certified representations and information provided to the Department.

If you have any questions regarding this matter, please contact A.J. Joshi at (609) 433-8735.

Sincerely,

Gwen B. Zervas, P.E.
