Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) has completed review of the referenced letter submittals, received May 11, 2016, prepared by the Department of the Army in response to NJDEP comments on the Final Groundwater Sampling Report – Third Quarter 2014 as well as First and Second Quarters 2015.

A review of the submittals, received on May 11, 2016 indicates all DEP issues as stated in the December 14, 2015 and February 4, 2016 letters have been adequately addressed by the comments contained in subject submittals. More specifically, the RI process at FTMM-22, FTMM-53 and FTMM-68 is active and ongoing; the temporary cessation of the Long Term Monitoring Program (LTMP) during site characterization was approved by the DEP on March 16, 2016. Additional actions (e.g. reinstatement of the LTMP) are pending completion of the RI.

Please contact this office if you have any questions.

Sincerely,

Linda S. Range
