Re **FTMM 68**

- **Remedial Action Work Plan (RAWP) for Removal of VOC Contaminated Soils**
- **Hydraulic Fracturing Pilot Test (HFPT)**

Fort Monmouth
Oceanport, Monmouth County
Preferred ID: G000000032

Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) has completed review of the referenced reports for FTMM-68. Based upon the review, the Department approves the proposed excavation and removal of VOC contaminated soils as well as additional In-Situ Chemical Oxidation. Furthermore, the United States Army has proposed, in a document dated November 30, 2018, a HFPT at FTMM-68. The Department previously requested additional information regarding the HFPT including the geologic aspect of the area in the HFPT area. Please be advised that the information contained in the HFPT is satisfactory and the Department approves the HFPT as presented.

Thank you and please feel free to contact me if you have any questions.

Sincerely,

A.J. Joshi
