Re Removal Action Completion Report (RACR) – Western Portion Parcel 49  
Fort Monmouth, Oceanport, Monmouth County  
Preferred ID: G000000032

Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) has completed review of the RACR for western portion of Parcel 49. This RACR outlined the time-critical removal of PAH contaminated soils at western portion of Parcel 49. All excavated soils have been removed and delivered to an off-site facility. Based on the review the Department offers no comments to the submitted RACR and concurs with the soil removal action. Further, the proposed action of soil removal and offsite disposal is acceptable.

Thank you and please feel free to contact me if you have any questions.

Sincerely,

A.J. Joshi
