Subject: Re: GROUNDWATER ANALYSES REDUCTION (Part II)

Doug: The Department has completed a review of your November 16, 04 letter request, sent via e-mail, to reduce the groundwater sampling analysis at an additional five sites located at Main Most and Charles Woods as listed in the November 16, 04 letter. The Department hereby approves your request as submitted. If you have any questions please contact me.

Sincerely, greg

<Douglas.Guenther@mail1.monmouth.army.mil> 11/16/04 11:36AM >>> Greg,

Thank you for your prompt response to my letter dated November 10, 2004 regarding groundwater sample analyses reduction at seven sites on Ft. Monmouth. After further review of Ft. Monmouth's groundwater sampling program, it was determined an additional five sites need revisions to the constituents currently being analyzed to maintain a compliant and cost effective program. Attached is correspondence discussing analyses reduction at these five restoration sites as well as the site reports that will be submitted in the near future. Quarterly groundwater sampling at these sites will continue as indicated pending NJDEP receipt and review of said reports. A hard copy of this letter is on the way. Any questions please let me know.

Sincerely,

Douglas C. Guenther
