As you had discussed with Mr. Appleby, the report format changed to reduce the amount of redundant information in each report thus allowing for more efficient evaluation by you. As in the past we have included an executive summary which covers the site history and proposed plans. The conclusions and recommendations section has greater detail with regard to the scheduled activities. The drawings are more detailed than past reports and should prove to be of great value to you.

If the information provided in this enclosure is inadequate or you require further information with regard to these documents please contact Mr. Appleby at (732) 532-6224.

Sincerely,

James Ott
Director
Directorate of Public Works
