**Subject:** Re: Response to NJDEP comments - FTMM BEE WP

Wanda,

We won't be able to give you a full response on the BEE stuff until the latter part of next week. We will have some comments on the wording of some of the "no BEE" justifications.

As a partial response, the following are a few notes on Tables 3-1 and 3-2:

There is text missing in the Basis/Remarks column for Parcels 15, 27, 44, 51, 52, and 83. We will need to see the missing parts.

Parcel 36 - Basis/Remarks should say western portion of MP, vs. southeastern.

Parcel 32 - site name column should also say CW-4, and Basis/Remarks should add that NFA was issued on 4-26-07.

Thanks and we'll speak to you next week sometime.

I hope you had a good week off. The weather has been pretty good this past week, no?

Larry Quinn, Site Manager, NJDEP

Larry,

Please see the attachments. Shaw has attached responses to your comments on the Draft BEE Workplan, word file with text changes tracked, and the 2 new tables proposed to be added to Section 3 in response to your comment #1. Please review and let me know if any modifications are required.

Thanks,
