No Further Action

As you recall, we had reviewed these site reports in May and we concluded that they were administratively correct and did not require further action. As in the past we have included an executive summary which covers the site history and proposed plans. The drawings are more detailed than past reports and should prove to be of great value to you. Additional reports are being prepared by BCM, Smith and I will make every attempt to discuss them with you in person as was done with this group.

If the information provided in this enclosure is inadequate or you require further information with regard to these documents please contact me at your convenience at (732) 532-6224.

Sincerely,

Charles Appleby
