Re: Draft Record of Decision for Landfills FTMM-02 and FTMM-08

Preferred ID: G000000032

Dear Mr. Colvin:

The New Jersey Department of Environmental Protection (Department) has completed review of Draft Record of Decision (ROD) for Landfills FTMM-02 and FTMM-08. The Department offers the following comments on the draft ROD.

- 1.) Page 1-2 paragraph 2 – please change the citation to read N.J.A.C. 7:26E-5.2(d)
- 2.) Page 1-2 paragraph 4 – please note that the CEA does not restrict ground water use or installation of drinking water wells. Rather, the CEA is placed along with a Well Restriction Area on FTMM-02 and FTMM-08. The wording in the ROD should be changed to acknowledge that a Well Restriction Area restricts ground water use.
- 3.) Page 1-4 - The Concurrence Signature line and date for Assistant Commissioner's line needs to be deleted. The Department will be issuing a concurrence letter, but will not sign the ROD.
- 4.) Page 2-19 – The listed MTBE Ground Water Quality Standard is incorrect. Please change the standard from 50ppb to 70ppb.

Please submit the revised ROD to my attention for review. Thank you and please feel free to contact me if you have any questions.

Sincerely,

A.J. Joshi
