Re: AMENDMENT LETTER - DRAFT Finding of Suitability To Transfer (FOST) – Carve
Out Group 2
Fort Monmouth, Oceanport, Monmouth County
SRP PI # G000000032

Mr. Colvin:

This correspondence is an AMENDMENT to the Department's June 28, 2018 correspondence. The June 28, 2018 correspondence stated that the New Jersey Department of Environmental Protection (Department) has completed the review of the above referenced Draft FOST for Carve out Group 2 (Parcels 35, 51, 68, 70, 78, 79, 80, 84, 102, and 108). The letter should have also referenced Parcel 53 (excluding pesticides). To clarify, all necessary remedial activities have been conducted by the Department of Army for Parcels 35, 51, 53 (excluding pesticides), 68, 70, 78, 79, 80, 84, 102, and 108. Therefore, the Draft FOST is acceptable. Please feel free to contact me if you have any questions. Thank you.

Sincerely,

A.J. Joshi
